

Objective I am seeking to begin my industrial design career at a growing company by year's end.

Education Georgia Institute of Technology, Atlanta, Ga
Bachelor of Science in Industrial Design '12
- 4 Semesters on the Dean's List
- GPA/Major: 3.0/3.6

Experience Lord Aeck Sargent Architects, Atlanta, GA
Architecture Intern, Department of Juvenile Justice Project, July-August 2012
- Surveyed DJJ facilities across the state of Georgia, gathering BLLIP information on each building
- Processed, organized, and presented the data for official use in print and online using Adobe CS5

Micromeritics Instrument Corporation, Norcross, GA
Contract Consultant, Sample Preparation Products Redesign, January- May 2012
- Conducted market and technological research
- Presented concepts to engineering and marketing departments at Micromeritics
- Iterative prototyping, culminating in a full-scale sheetmetal mockup
- Collaborated with engineers in the testing of component functions, resulting in measurable performance, efficiency, and usability improvements

Awards and Involvement Shift: Award for Outstanding Design Performance
Georgia Institute of Technology, College of Architecture
School of Industrial Design End of Year Show 2010

Industrial Designers Society of America: Student Member
Southern Division Conference 2011, Austin, TX
- 3 designs featured, representing Georgia Tech
- Design for manufacture, rapid prototyping, and sustainability workshops

IDSA, Georgia Tech Chapter
Art Direction Team, August 2010-May 2011
- Created original promotional content weekly for meetings and events
- Distributed IDSA posters, improving awareness and meeting attendance

Delta Tau Delta, Gamma Psi
Promotions and T-shirt Chair, August 2009- May 2012
- Produced original designs for promoting events through social networking
- Generated original electronic artwork for screen printing over 500 shirts
